Form PCT/IPEA/409 (cover sheet)(July 1998)

INTERNATIONAL PRELIMINARY EXAMINATION REPORT

International application No.

PCT/US03/41808

I. Basis of the report

1. With regard to the elements of the international application:*

the international application as originally filed.

the description:

pages 1-35 as originally filedpages NONE, filed with the demandpages NONE, filed with the letter of _____

the claims:

pages 36 and 37 as originally filedpages NONE, as amended (together with any statement) under Article 19pages NONE, filed with the demandpages NONE, filed with the letter of _____

the drawings:

pages 1-6 as originally filedpages NONE, filed with the demandpages NONE, filed with the letter of _____

the sequence listing part of the description:

pages 1-6 as originally filedpages NONE, filed with the demandpages NONE, filed with the letter of _____2. With regard to the **language**, all the elements marked above were available or furnished to this Authority in the language in which the international application was filed, unless otherwise indicated under this item.

These elements were available or furnished to this Authority in the following language _____ which is:

the language of a translation furnished for the purposes of international search (under Rule 23.1(b)).

the language of publication of the international application (under Rule 48.3(b)).

the language of the translation furnished for the purposes of international preliminary examination (under Rules 55.2 and/or 55.3).

3. With regard to any **nucleotide and/or amino acid sequence** disclosed in the international application, the international preliminary examination was carried out on the basis of the sequence listing:

contained in the international application in printed form.

filed together with the international application in computer readable form.

furnished subsequently to this Authority in written form.

furnished subsequently to this Authority in computer readable form.

The statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.

The statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished.

4. ☐ The amendments have resulted in the cancellation of:the description, pages NONEthe claims, Nos. NONEthe drawings, sheets/fig NONE5. ☐ This report has been established as if (some of) the amendments had not been made, since they have been considered to go beyond the disclosure as filed, as indicated in the Supplemental Box (Rule 70.2(c)).**

* Replacement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to in this report as "originally filed" and are not annexed to this report since they do not contain amendments (Rules 70.16 and 70.17).

** Any replacement sheet containing such amendments must be referred to under item 1 and annexed to this report.

V. Reasoned statement under Rule 66.2(a)(ii) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement**1. STATEMENT**

Novelty (N)

Claims 1-3, 5-8 YESClaims 4 NO

Inventive Step (IS)

Claims 1-3, 5-8 YESClaims 4 NO

Industrial Applicability (IA)

Claims 1-8 YESClaims NONE NO**2. CITATIONS AND EXPLANATIONS**

Claim 4 lacks novelty under PCT Article 33(2) as being anticipated by Baranowski *et al.* (*Journal of Virology*, 1998, Vol. 72, No. 8, pages 6362-6372). The claim is drawn to an isolated polynucleotide comprising SEQ ID NO: 16, 17, 18, 19 or 20. Baranowski *et al.* discloses the full-length genome of foot and mouth disease virus (FMDV), which contains Applicant's SEQ ID NO: 16.

Claims 1-3 and 5-8 meet the criteria set out in PCT Article 33(2)-(3), because the prior art does not teach or fairly suggest a primer set or pair of polynucleotides comprising SEQ ID Nos: 16 and 17, 16 and 18, 16 and 19, or 16 and 20, or a method of using the polynucleotides.

Claims 1-8 meet the criteria set out in PCT Article 33(4), and thus have industrial applicability because the subject matter claimed can be made or used in industry.
